

DR. EDDIE MÉNDEZ

POSTDOCTORAL SYMPOSIUM

NOVEMBER 2-6, 2020

FRED HUTCHINSON CANCER RESEARCH CENTER

Presentations will be hosted over the BlueJeans platform.

We invite you to attend the 2nd Dr. Eddie Méndez Symposium which recognizes outstanding diverse post-doctoral fellows from throughout the United States who are conducting cancer, infectious disease, or basic science research.

This symposium honors Dr. Méndez, a physician-scientist at Fred Hutch and cherished colleague and mentor. Originally from Puerto Rico, he died in 2018 from cancer. This award recognizes Dr. Méndez's commitment to cancer research and to supporting early career scientists from underrepresented minority groups.

MONDAY, NOV. 2

2:00-2:30 p.m.

Treatment delays and work after breast cancer and improving American Indian health

Marc A. Emerson, Ph.D, M.P.H. | Postdoctoral Fellow
Lineberger Comprehensive Cancer Center

2:30-3:00 p.m.

Cancers Averted Among HIV-Infected Adults During 2008-2015

Jessica Yasmine Islam, Ph.D., M.P.H. | Postdoctoral Fellow
Lineberger Comprehensive Cancer Center, University of North Carolina at Chapel Hill

TUESDAY, NOV. 3

12:00-12:30 p.m.

Dual role of acetylcytidine in the regulation of translation initiation and elongation

Daniel Arango, Ph.D. | Postdoctoral Fellow
National Cancer Institute

12:30-1:00 p.m.

Understanding mechanisms of transcriptional regulation by chromatin adaptor proteins

Yadira M. Soto-Feliciano, Ph.D. | Postdoctoral Fellow
The Rockefeller University

BLUEJEANS LINKS FOR EACH SESSION

Monday, November 2, 2-3 p.m.

Tuesday, November 3, 12-1 p.m.

<https://primetime.bluejeans.com/a2m/live-event/typvrepb>

Wednesday, November 4, 12-1 p.m.

<https://primetime.bluejeans.com/a2m/live-event/typvrepb>

Friday, November 6, 12-1:30 p.m.

<https://primetime.bluejeans.com/a2m/live-event/bbfvyyxw>

WEDNESDAY, NOV. 4

12:00-12:30 p.m.

HIV-1 Envelope Glycoprotein Trafficking and Viral Transmission

Melissa V. Fernandez, Ph.D. M.SC. | Postdoctoral Fellow
National Cancer Institute

12:30-1:00 p.m.

Multi-omic single-cell analysis uncover tumor-unique immune programs distinct from inflamed tissue phenotypes

Jami Erikson, Ph.D. | Postdoctoral Fellow
Fred Hutchinson Cancer Research Center

FRIDAY, NOV. 6

12:00-12:30 p.m.

Stem cell reprogramming during oncogenesis

Nicholas C. Gómez, Ph.D. | Postdoctoral Associate
The Rockefeller University

12:30-1:00 p.m.

Studying human oncoproteins beyond cancer

Pau Castel, Ph.D. | Postdoctoral Fellow
Helen Diller Comprehensive Cancer Center,
University of California San Francisco

1:00-1:30 p.m.

Harnessing the regenerative potential of hematopoietic stem cells using a novel surface marker

Christina Marie Termini, Ph.D. | Postdoctoral Fellow
University of California, Los Angeles
