

How to add End of Life Document to your UWMC/SCCA Health Record

It is important to have your health care End-of-Life documents available to your healthcare team. These records include:

- POLST (Physician Orders for Life Sustaining Treatment)
- Power of Attorney for Health Care
- Living Will
- Advance Directives

Follow these steps to add End-of-Life documents to your health record:

1. Log into **MyChart**
2. Select **Menu**
3. Select **Advanced Care Planning** under My Record
4. Select **Add a document** to import your End-of-life documents

3 My Record

- COVID-19
- Visits
- Test Results
- Medications
- Health Summary
- Plan of Care
- Current Health Issues
- Allergies
- Immunizations
- Preventive Care
- Questionnaires
- History Questionnaires
- Upcoming Tests and Procedures
- Medical and Family History
- Health Reports
- Trends Dashboard
- Document Center
- Advanced Care Planning
- Digital Health

4 Advance Care Planning

An advance directive allows you to name someone to speak on your behalf if you become unable. Having an advance directive can ease the stress on loved ones if they are faced with critical decisions about your medical care. Because all of us could face serious illness or injury at any time, Providence St. Joseph Health believes every person over 18 should complete an advance directive. Contact your physician or care team if you would like to add or update your advance directive to your medical record.

Having a plan is one of the best gifts you can give to those you care about.

Hear why Dr. Ira Byock completed his advance directive.
